The trail going into the canyon has two sections that are steep one 45 yards, another 30 yards. The trail is more like a game trail. Once you get to the river it jumps between easy walking to watch your step unloose rocks to get to the holes. From where we park to the river it's only around 1/4 mile, so it's not far. I wear a good pair of barn boots but allot of folks pack hip boots in to the bottom, I provide all the rods reels tackle and bait. If you have your own light weight rod it would be great, you would want 8 lb ultra green maxima or a good brand 8 lb line. (Photos below taken on 1/23/10 trip)
